A

A British national lymphoma investigation symposium 481
Abscess, pseudo-subphrenic . . . . . 157
Abscess, Subphrenic: the radiological approach . . 147
Abscopal regression in lymphoma: A mechanism in common with total body irradiation? . . . 475
Achalasia, Cervical dysphagia: pharyngeal protrusions and . . . . . 643
A comparison of four methods of bowel preparation for barium enema . . . . . 95
Acute presentation of renal tumours . . . . 585
Adenoidal enlargement be measured, How should? a radiological study based on interobserver agreement . . . . . 337
Analysis of grade 1 Hodgkin's disease (Report No 6) . 491
Analysis of the chest radiograph in legionnaires' disease . . . . . 361
An analysis of 200 patients with negative small bowel enemas . . . . . 183
Anatomy of the hip as demonstrated by computed tomography . . . . . 663
Angiographic method for assessing aortofemoral bypass grafts, A simple . . . . . 117
Angiography and computed tomography in the diagnosis of primary lymphoma of the brain . . 383
Angiography, Supratentorial haemangioblastoma: the diagnostic roles of computed tomography and . 389
Angiomas, Gastro-intestinal bleeding from large . . 629
An improved method for sacro-iliac joint imaging: A study of normal subjects, patients with sacro-iliitis and patients with low back pain . . . . 441
Aortoarteritis, Tuberculous . . . . . 461
Aorto-femoral bypass grafts, A simple angiographic method for assessing . . . . . 117
A prospective survey of radiological bone and joint changes in primary biliary cirrhosis . . . . 297
A randomised trial to investigate X-prep, oral mannitol and colonic washout for double contrast barium enema . . . . . 591
Arterial connections of the lung: The inaugural Keith Jefferson Lecture . . . . . 1
Arteriovenous malformations of the gastro-intestinal tract . . . . . 623
Arthrography in the management of internal derangements of the knee, The value of: the first 1000 are the worst . . . . . 557
A simple angiographic method for assessing aorto-femoral bypass grafts . . . . . 117
Asthma, Value of chest radiographs in severe acute . 281
A study of the efficacy of noxytiolin instillation as adjunctive to radiotherapy in carcinoma of the bladder: a clinical trial . . . . . 237

B

Barium enema diagnosis of paracolic abscess, The . 73
Barium infusion in small intestinal obstruction, The . 651
Bile duct obstruction by the percutaneous transhepatic insertion of a endoprosthesis, Relief of . . 163

Page

Bladder, A study of the efficacy of noxytiolin instillation as adjunctive to radiotherapy in carcinoma of the: a clinical trial . . . . . 237
Bladder carcinoma, Bone formation associated with osseous metastases from . . . . . 303
Bone formation associated with osseous metastases from bladder carcinoma . . . . . 303
Bone scanning? Multiple myeloma: Radiology or . 291
Bowel, Intraperitoneal spread of malignancies and its effect on the . . . . . 129
Bowel preparation for barium enema, A comparison of four methods of . . . . . 95
Brain, Angiography and computed tomography in the diagnosis of primary lymphoma of the . . 383
Brain, Discrepancies between radionuclide and computed tomography scans in detecting secondary neoplastic involvement of the . . . . . 265
Breast cancer, Results of local excision and radical radiotherapy in early . . . . . 41

C

Calcification, Radiological patterns and significance of thyroid . . . . . 571
Comparison between iodamide and iothalamate in intravenous urography . . . . . 677
Carcinoma (cholangiocarcinoma) in the jaundiced patient, The diagnosis of primary bile duct . . 311
Carcinoma in women aged less than 40 years, The prognosis of breast . . . . . 231
Carcinoma of the bladder, A study of the efficacy of noxytiolin instillations as adjunctive to radiotherapy in: a clinical trial . . . . . 237
Carcinoma of the gallbladder associated with chronic inflammatory bowel disease . . . . . 319
Carcinoma of the prostate: the treatment of bone metastases by radiophosphorus . . . . 695
Carcinoma of uterine cervix, Radiotherapy following primary surgery for . . . . . 347
Cardiac transplantation, Thallium-201 myocardial imaging in patients with previous . . . 447
Cervical cord size in metrizamide myelography . . 409
Cervical dysphagia: pharyngeal protrusions and achalasia . . . . . 643
Cervical oesophageal webs in patients with dysphagia . 633
Cervix, Radiotherapy following primary surgery for carcinoma of uterine . . . . . 347
Chemotherapy in the management of Stage III/IV grade I non-Hodgkin's lymphomas (Report No 17). 547
Chest radiograph in legionnaires' disease, Analysis of the . . . . . 361
Chest radiographs in severe acute asthma, Value of . 281
Chiba needle in renal puncture guided by real-time ultrasound . . . . . 421
Cholangiography by bolus injection of meglumine iotroxamate and meglumine iodoxamate: Intravenous, a comparative trial of two new contrast media . . . . . 457

Page

Clinical cardiovascular experiences with iopamidol: A new non-ionic contrast medium . . . . 451
Clinico-epidemiological study of Kaposi's Sarcoma in Egypt . . . . . 355
Colitis, Radiological manifestations of ritual-enema-induced . . . . . 657
Colloid cysts of the third ventricle, Computed tomography of . . . . . 397
Combination chemotherapy for Stage IV Hodgkin's disease (Report No 14) . . . . . 531
Comparative study of the methylglucamine salts of iodamide and iothalamate in clinical urography . 341
Complications in the management of the malignant lymphomas (Report No 15) . . . . . 537
Complications of phlebography: a randomised comparison between an ionic and a non-ionic contrast medium . . . . . 595
Computed axial tomography of pituitary adenomas . 259
Computed tomographic diagnosis of subtle subdural haematomas, Grey-white matter interface (G-WMI) displacement: a new sign in the . . . . 393
Computed tomography and angiography, Supratentorial haemangioblastoma: the diagnostic roles of . 389
Computed tomography and histological correlation of the thymic remnant . . . . . 255
Computed tomography and localisation of parathyroid tumours . . . . . 251
Computed tomography in sellar and supraseller lesions, Metrizamide cisternography with hypoxycloid and . . . . . 403
Computed tomography in the radiology of testicular teratomas. . . . . 679
Computed tomography, Normal axial anatomy of the hip as demonstrated by . . . . . 663
Computed tomography of the liver and pancreas, The use of right decubitus position in . . . . 113
Computed tomography appearances in microgliomatosis . . . . . 367
Computed tomographic scans in detecting secondary neoplastic involvement of the brain, Discrepancies between radionuclide and . . . . . 265
Computed tomography of colloid cysts of the third ventricle . . . . . 397
Contrast medium, Complications of phlebography: a randomised comparison between an ionic and a non-ionic . . . . . 595
Contrast media, Intravenous cholangiography by bolus injection of meglumine iotroxamate and meglumine iodoxamate: a comparative trial of two new . 457
Crohn's disease of the colon, Diffuse mucosal granularity in double-contrast studies of . . . 85
Curietron at The London Hospital, Use of the . . 17

D

Dacarbazine (DTIC) in malignant melanoma: reduced toxicity with protection from light . . . 53
Diagnostic radiology, Research in: a holistic perspective 121
Diffuse mucosal granularity in double-contrast studies of Crohn's disease of the colon . . . 85
Discrepancies between radionuclide and computed tomographic scans in detecting secondary neoplastic involvement of the brain . . . . 265
Diverticulum, Pseudostone at ERCP due to juxtapapillary . . . . . 173
Does inhibition of prostaglandin synthesis increase the diagnostic accuracy of the intravenous urogram in renal artery stenosis? . . . . . 425

E

Ectopic pregnancy, The use of ultrasonography in the diagnosis of . . . . . 331
Embolisation of the spleen, Therapeutic arterial: a new cause of free intraperitoneal gas . . . 617
Embolisation, Superior gluteal artery haemorrhage following pelvic fractures controlled by . . 187
Endoprosthesis, Relief of bile duct obstruction by the percutaneous transhepatic insertion of an . . 163
Enema-induced colitis, Radiological manifestations of ritual . . . . . 657
ERCP due to juxtapapillary diverticulum, Pseudostone at . . . . . 173
Evaluation of diagnostic laparotomy and splenectomy in Hodgkin's disease (Report No 12) . . . 523
Ewing's sarcoma: A combined approach in the management . . . . . 471
Excision and radical radiotherapy in early breast cancer, Results of local . . . . . 41

F

Fat stores in normal and malnourished patients, The radiological assessment of arm muscle and . . 467
Femoral head in homozygous sickle cell disease, The radiological features of avascular necrosis of the . 205

G

Gallium-67 scanning in the painful total hip replacement . . . . . 431
Gastric ulcers, Penetration into spleen by benign . 177
Gastro-intestinal bleeding from large angiomas . . 629
Gastro-intestinal tract, Primary lymphoma of the . 73
Grey-white matter interface (G-WMI) displacement: A new sign in the computed tomographic diagnosis of subtle subdural haematomas . . . . . 393

H

Haemangioblastoma, Supratentorial: the diagnostic role of computed tomography and angiography . 389
Haemorrhage following pelvic fractures controlled by embolisation . . . . . 187
Half body irradiation (HBI) in metastatic carcinomas . 215
Head and neck cancer, Pilot study of radiotherapy with misonidazole in . . . . . 225
Hip as demonstrated by computed tomography, Normal axial anatomy of the . . . . . 663
Hip replacement, Gallium-67 scanning in the painful total . . . . . 431
Hip replacement, Urinary tract complications of total . 429
Histopathology of large cell lymphomas (Report No 9) . 505
Hodgkin's disease: A curable malignancy . . . . 241
Hodgkin's disease, Infradiaphragmatic presentation of . 221
How should adenoidal enlargement be measured? A radiological study based on interobserver agreement 337
Hypothyroidism after radioactive iodine therapy for thyrotoxicosis in Hong Kong Chinese, Incidence of . 57

*Page*

I

Improvements in technique developed over a series of 500 orbital venograms – Cavernous sinograms . 107
Incidence of hypothyroidism after radioactive iodine therapy for thyrotoxicosis in Hong Kong Chinese . 57
Inflammatory bowel disease, Primary carcinoma of the gallbladder associated with chronic . . . 319
Infradiaphragmatic presentation of Hodgkin's disease . 221
Infrapapillary carcinoma of the duodenum, Radiological and endoscopic diagnosis of . . . . 91
Intestinal tract, Arteriovenous malformations of the gastro- . . . . . 623
Intraperitoneal spread of malignancies and its effect on the bowel . . . . . 129
Intravenous cholangiography by bolus injection of meglumine iotroxamate and meglumine iodoxamate: a comparative trial of two new contrast media . . . . . 457
Intravenous urography, comparison between iodamide and iothalamate in . . . . . 677
Iodamide and Iothalamate in clinical urography, Comparative study of the methyglucamine salts of. 341
Iopamidol: Clinical cardiovascular experiences with a new non-ionic contrast medium . . . . 451

J

Jaundiced patient, The diagnosis of primary bile duct carcinoma (cholangiocarcinoma) in the . . 311

K

Kaposi's sarcoma in Egypt, Clinico-epidemiological study of . . . . . 355
Knee: The value of arthrography in the management of internal derangements of the, the first 1000 are the worst . . . . . 557

L

Larynx, Xeroradiographic tomography of the . . 577
Legionnaires' disease, Analysis of the chest radiograph in . . . . . 361
Leukoplakia, Malignant changes in glossal . . 693
Liver and pancreas, The use of the right decubitus position in computed tomography of the . . 113
Lobe collapse, The luftischel: an old sign in upper . 271
Lung, arterial connections of the: the inaugural Keith Jefferson Lecture . . . . . 1
Lung water in minimal pulmonary oedema, Radionuclide assessment of extravascular . . . . 607
Lymphomas of the testis – results of treatment 1960–1977 . . . . . 687

M

Malignancies and its effect on the bowel, Intraperitoneal spread of . . . . . 129
Malignant changes in glossal leukoplakia . . . 693
Melanoma, Dacarbazine (DTIC) in malignant: reduced toxicity with protection from light . . . . 53
Metastases from carcinoma, Bone formation associated with osseous . . . . . 303
Metastatic carcinomas, Half body irradiation (HBI) in . 215
Metrizamide cisternography with hypocycloid and computed tomography in sellar and suprasellar lesions . . . . . 403

*Page*

Metrizamide myelography, cervical cord size in . . 409
Microgliomatosis, Computed tomographic appearances in . . . . . 367
Misonidazole in head and neck cancer, Pilot study of radiotherapy with . . . . . 225
Mucosal granularity in double-contrast studies of Crohn's disease of the colon, Diffuse . . . . 85
Multiple myeloma: radiology or bone scanning? . 291
Muscle and fat stores in normal and malnourished patients, The radiological assessment of arm . . 467

N

National cancer retrospective study of the non-Hodgkin's lymphomas (Report No 7) . . . . 499
Neuroblastomas, Radiological and clinical evaluation of twenty . . . . . 191
Non-ionic contrast medium, Clinical cardiovascular experiences with iopamidol: A new . . . . 451
Normal axial anatomy of the hip as demonstrated by computed tomography . . . . . 663
Noxytiolin instillation as adjunctive to radiotherapy in carcinoma of the bladder, A study of the efficacy of: a clinical trial . . . . . 237

O

Oesophageal webs in patients with dysphagia, Cervical. 633
Omental mass lesions, Radiological diagnosis of primary greater . . . . . 325
Orbital venograms – cavernous sinograms, Improvements in technique developed over a series of 500 . 107
Osteoid osteoma: an evaluation of diagnostic modalities . . . . . 199

P

Pancreas, The use of the right decubitus position in computed tomography of the liver and . . 113
Paracolic abscess, The barium enema diagnosis of . 73
Parathyroid tumours, Computed tomography and the localisation of . . . . . 251
Pelvic fractures controlled by embolisation, Superior gluteal artery haemorrhage following . . . 187
Penetration into spleen by benign gastric ulcers . . 177
Per rectal ultrasound in the investigation of prostatic disease . . . . . 669
Pharyngeal protrusions and achalasia, Cervical dysphagia . . . . . 643
Phlebography, Complications of: a randomised comparison between an ionic and a non-ionic contrast medium. . . . . 595
Pilot study of radiotherapy with misonidazole in head and neck cancer . . . . . 225
Pituitary adenomas, Computed axial tomography of . 259
Plasmacytoma of the head and neck, Radiotherapy of extramedullary . . . . . 31
Pleura, Ultrasound of the: an assessment of its clinical value . . . . . 289
Pneumatocoeles following haemophilus influenzae pneumonia . . . . . 99
Pneumonia, Pneumatocoeles following haemophilus influenzae . . . . . 99
Primary biliary cirrhosis, A prospective survey of radiological bone and joint changes in . . 297
